SOMETIMES ALL YOU NEED IS A LITTLE SPLASH OF COLOUR

There is a reason we don't see the world in black and white.

Color is a power which directly influences the soul.

Listen of the colour of your Dreams.

Without black no colour has any depth.

Colour is like food for the spirit.

Color!
What a deep and mysterious language, the language of dreams!

Life is a great big canvas;
throw all the paint you can

at it!

There is a shade of colour or more for every woman!

Colours speak all languages!

Colour creates, enhances, changes, reveals and establishes the mood of life!

In nature, light creates the color,
In the picture color creates the light!

Life is full of colours :
If you can embrace every colour ;
You can enjoy life!

The Piano keys are black and white but they sound like a million color in the mind!

The soul becomes dyed with the colour of its thoughts.

The best colour in the whole world
is the one that looks good on You!
